

Cosmi Code Summer Internship Program

Week 5- Task # 02

Task 2: Perform a competitor blog analysis: identify 3 competitor blogs, their content topics, and engagement strategies.

Submitted by Xenobia Mustafa Khan

Intern ID: CCP\345670084

Submission Date: 02nd August 2025, Saturday

Task 2: Perform a competitor blog analysis: identify 3 competitor blogs, their content topics, and engagement strategies.

1. Verywell Mind

- Website: www.verywellmind.com
- Focuses on anxiety & stress management, talks mainly about mental health in daily life, and finally, gives out therapy advice & professional insights.
- This website uses SEO-optimized how-to articles – giving a rise to organic search traffic, and also includes quotes from experts and medical reviews to build trust. Moreover, it engages readers with email newsletters offering weekly tips, and lastly, it also features share buttons for Facebook, Pinterest & Twitter to encourage content sharing.

2. Mind.org (Mental Health Charity)

- Website: <https://www.mind.org.uk>
- Focuses on real-life mental health stories, gives out workplace mental health tips, and finally, it guides readers on depression, anxiety, and crisis support.
- Uses personal storytelling to emotionally connect with readers
 - Includes calls to action for donations or support groups
 - Provides downloadable guides & resources
 - Actively promotes posts via Twitter (now known as “X”) and LinkedIn

3. The Mighty

- Website: www.themighty.com
- Personal mental health journeys (community-driven stories)
 - Coping with chronic illness & mental health overlap
 - Social media & mental health effects
- Engagement Strategies:
 - Strong community-building features — readers can post their own stories
 - Encourages commenting & discussions to create a supportive network
 - Shares viral, bite-sized mental health posts on Instagram and TikTok
 - Newsletter highlights trending stories to keep readers coming back
